MENTAL AND BEHAVIORAL HEALTH – YOUTH

RFP ID #MBH-2018-2

REQUEST FOR PROPOSAL

1. OVERVIEW

Portage Health Foundation (PHF) in collaboration with the Michigan Health Endowment Fund (Health Fund) is releasing a second round of funding support for 2018. The intention of these grants is to support projects that will have an impact on community health and wellness while addressing the systemic health needs and risk factors of youth in the four-county region. Further, we anticipate proposals will identify key components to support sustainability and/or systems change to ensure ongoing service delivery to meet community need once grant awards have been fully expended.

The most recent Mental and Behavioral Health Request for Proposal resulted in two grant awards. The first awarded to the Public Schools of Calumet, Laurium & Keweenaw focuses on the creation of a trauma-informed school; development of internal and external referral supports; therapy resources; and training for all school district staff and faculty.

The second award made to Dial Help, Inc. seeks to enhance and expand crisis response for children; coordination and navigation of services; and in-home family support.

Although these are important and positive steps towards meeting the mental and behavioral health (MBH) needs of our children and families, they are the first steps of many toward long-term solutions.

This call for proposal specifically addresses two of the five pillars of emphasis of the Portage Health Foundation: Access to Care and Community Health. It also addresses a key Health Fund priority: mental and behavioral health services for children.

Grants will provide financial resources to develop new and/or expanded health services which meet our community's needs, further providing support for activities that promote healthy lifestyles which improve the overall health of a community.

Successful proposals will align with the Portage Health Foundation's mission and address mental and behavioral health including SUD and addiction services specifically around needs of our youth population (ages 0-18). For example, some areas of interest identified from the community-convenings that have taken place include:

1. Early intervention and prevention programs including:
 - o SUD/Addiction and Prevention Services
 - o Suicide Prevention and Awareness
 - o Grief/Loss
 - o Anti-bullying
2. MBH service access, coordination, and navigation targeting programming that will help address various forms of mental illness, stress reduction, anxiety, and depression;
3. Programs to support youth leadership skills and resiliency development;
4. Mindfulness activities focused on aiding in the resiliency development of our youth population;
5. Programming specifically offered to provide parent education and engagement; and
6. Programs/trainings that incorporate healthy nutrition and physical activity as part of the approach to mental health maintenance and well-being

4. GRANT AMOUNT

The Portage Health Foundation expects to award up to \$250,000.00 towards successful proposals under this round of funding. There is no minimum grant amount and the maximum amount awarded under this RFP will be \$250,000.00.

5. APPLICATION PROCESS

Although not required, Portage Health Foundation strongly encourages all interested applicants to submit a [Letter of Inquiry](#) (LOI) prior to submitting a grant application. An LOI helps promote a clear understanding, collaboration, and project outcomes between PHF and grant applicants. Please approach the LOI as an abbreviated grant proposal that PHF can review to determine if a project matches our funding interests and is suitable for formal grant consideration. If an applicant has questions, they are encouraged to contact the PHF offices prior to formal submission of the application or refer the PHF's FAQ section on PHF's web page.

All interested parties intending to apply for funding support are encouraged to attend. Please visit PHF's website (www.phfgive.org/grants.php) to download an LOI and/or application.
