SMALL GRANTS PROGRAM

RFP ID#SG-2018-2

REQUEST FOR PROPOSAL

1. OVERVIEW

The Portage Health Foundation’s mission is to support the charitable health needs of the community through enhanced philanthropy and community collaboration. The Portage Health Foundation’s five pillars of emphasis guides meaningful investment in projects, programs, and services that meet the needs of the community and align with our mission of improving the health of residents in Baraga, Houghton, Keweenaw and Ontonagon counties.

The intention of these grants is to support projects that will have an impact on community health and wellness while addressing the systemic health needs and risk factors of the broader community. Further, it is hoped and desired that proposals seeking funding will have identified key components to support sustainability and/or systems change to ensure ongoing delivery of services to meet community need.

It is recognized that grants large and small can play a significant role in our community’s ability to meet the needs of the community. Often times the need for funding support is minimal and may not necessitate the complexity of application of larger grant requests. This call for proposals is designed to offer smaller levels of funding support to meet the needs of our community that focus on health related events and or activities that promote a healthy active lifestyle.

All small grant requests must align with the Portage Health Foundation’s mission.
